Environmental organizations applaud Ahousaht Chiefs' Moratorium on Industrial Logging in Clayoquot Sound

The Ahousaht Chiefs have announced a “Moratorium on Industrial Logging in Clayoquot Sound,” as a result of their community land use visioning process. Friends of Clayoquot Sound, Greenpeace Canada, Sierra Club BC, Wilderness Committee and ForestEthics Solutions congratulate the chiefs and community for this wonderful demonstration of leadership in Clayoquot Sound’s globally important rainforests. The majority of Clayoquot’s intact ancient temperate rainforest valleys are in Ahousaht Territory.

The environmental organizations are calling on the BC government to fully support the Ahousaht land use visioning process, reconciliation process and all necessary steps to enable the vision of the Ahousaht for the future of the rainforest in their territory.
